1 · Home

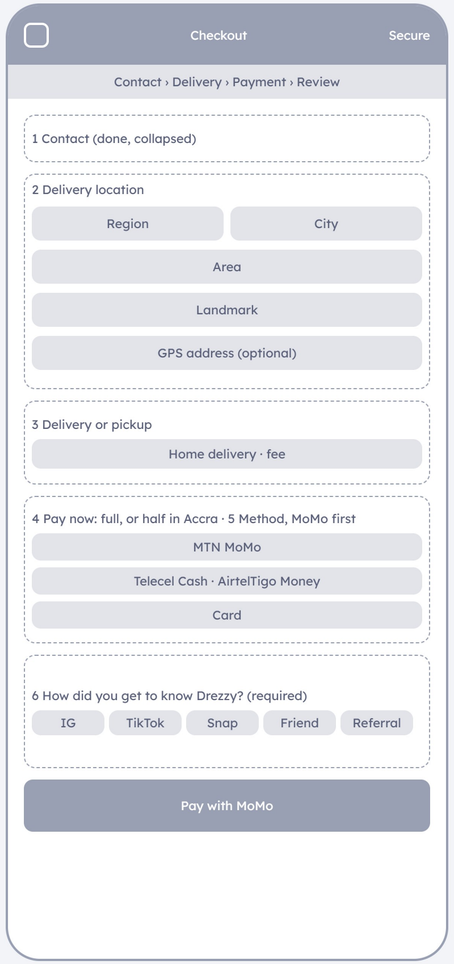

Every entry point is one tap: categories, new arrivals, Drip School outfit ideas. WhatsApp help floats above the bottom bar on every page.

2 · Product

Style, then colour, then size, the way Drezzy already describes stock. Unavailable sizes stay visible but greyed out. Delivery time includes getting it from the supplier.

3 · Checkout

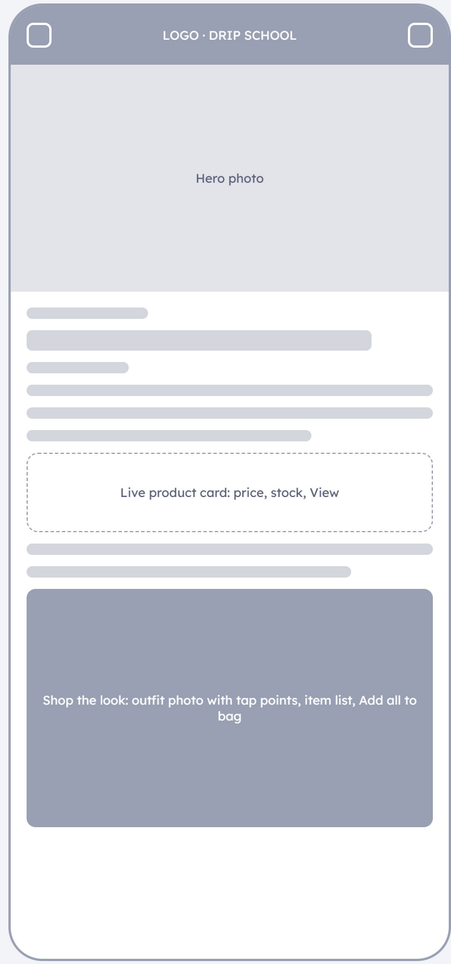

One page, short steps. Accra customers can pay half now; everyone else pays in full. The source question is required and feeds the marketing report.

4 · Order tracking

8 steps from Order placed to Delivered, including getting the item from the supplier. Shows any balance to pay. Opens with order number plus phone.

5 · Drip School article

Content always links to Drezzy's own catalogue. Product cards inside articles show live price and availability.
